

PERFORMANCE

combo cable lock

- 5ft. flexible self-coiling cable (8mm x 60")
- Resettable 4-digit combination
- Tough braided steel cable resists cutting
- Corrosion-resistant vinyl cover protects frame finish
- No keys to lose or forget

Lock Setting

1. Open the lock using the factory set combination: - - - -
2. Flip the reset lever to the up position (Figure A).
3. Reset the combination, making sure the number dials are aligned with the indicator mark on the lock case.
4. Flip the reset lever to the down position, being sure not to move the number dials as you do so.
5. Test the new combination by fully inserting the lock prong into the cylinder hole and reading the combination.
