

LENS CHANGE INSTRUCTIONS

MIRA

Removing the lenses:

Holding eyewear as shown, flex frame outward with thumb at lower frame edge. Push behind lens with index finger until it releases [image #1]. The lens should easily release at the arrow point [image #2].

Inserting the lenses:

Hold frame/lens as shown and slide lens into frame channels toward the bridge [Image #3]. Once secured at the bridge, use your thumbs to press lens into the frame until the lens snaps securely into place on all sides [image #4].
